Projects

Splendid Events - <https://spe-frontend.vercel.app/>

The app is designed to make the ticket purchasing process as easy and streamlined as possible.

Moringa School Website - <https://moringa-school-website.vercel.app/>

Moringa School website clone but different UI design.

EXPERIENCE

Project Manager (Scrum Master) | School/Personal Projects

June 2022 - Present | Remote

Key Responsibilities:

- Implemented the Scrum Framework, taught and coached my team members on how to perform in their respective roles, and ensured that they followed agile principles and values.
- Reviewed and merged code from different branches with the main/master branch.
- Resolved merge conflicts in GitHub for changes that were not able to merge automatically.

Key Accomplishments:

- Successfully implemented and improved the scrum process within the team, resulting in improved efficiency, productivity, and quality of work.
- Helped the team to improve their collaboration and communication skills, resulting in better team work and higher morale.
- Identified and removed obstacles that hindered the team's progress, hence a faster and on time delivery of software products.
- Built a strong relationship with my team members which in turn improved communication and alignment of project goals.

Freelance Web Developer | Wordpress

June 2021 | Remote

Key Responsibilities:

- Developed and maintained multiple WordPress websites for clients, such as blogs and portfolios.
- Analyzed different alternatives to migrate to different hosting platforms.
- Conducted testing & validation to ensure web pages conform to government regulations and policy.

Key Accomplishments:

- High customer satisfaction ratings and positive reviews from the clients
- Improved performance by ensuring the websites are SEO-friendly, fast loading and responsive.

EDUCATION

Moringa School | Software Engineering | Feb. 2023

Regional Institute of Business Management | Supply Chain Management | March. 2020
